NewLane Finance Program

Let doctors pay monthly — while PulmOne collects the full sale in cash, up front.

VENDOR FINANCING · PARTNER PROGRAM

MiniBox PFT · Internal review

How it works

1. Offer the doctor three monthly payment options (the discount is never mentioned).
2. PulmOne discounts the equipment and invoices NewLane for the net amount.
3. NewLane pays PulmOne in full, up front — no waiting on the practice.
4. NewLane collects the monthly payment directly from the customer.

The three options

Worked on a $39,000 system, plus tax

Term	Customer APR	Customer pays / mo	PulmOne invoices NewLane	Our discount
12 months	1.99%	**$3,285.14**	**$37,916.24**	$1,083.76 (2.78%)
24 months	2.99%	**$1,676.09**	**$37,341.04**	$1,658.96 (4.25%)
36 months	3.99%	**$1,151.26**	**$37,147.57**	$1,852.43 (4.75%)

Longer term = lower monthly payment for the doctor and a larger discount to NewLane. Shorter term = more cash to PulmOne.

What the doctor sees

Monthly payment only — no discount.

12 mo	24 mo	36 mo
$3,285	**$1,676**	**$1,151**

What PulmOne collects up front

Paid by NewLane within days of the sale.

12 mo	24 mo	36 mo
$37,916	**$37,341**	**$37,148**

The trade we are evaluating

We give up roughly $1,084–$1,852 per $39,000 deal. In return: cash within days instead of months, no collection risk, and a financing pitch that helps close price-sensitive practices.

Prepared by Erik Bernard

INTERNAL — not for distribution to customers. Discount and net-invoice figures stay between PulmOne and NewLane.
