

## **DLCO Calibration Gas Supply**

### **Required Gas Mixture:**

- 0.3% Methane (CH<sub>4</sub>)
- 0.3% Carbon Monoxide (CO)
- 21% Oxygen (O<sub>2</sub>)
- Balance Nitrogen (N<sub>2</sub>)
- *Medical-grade, 2% accuracy*

### **Tank Size & Estimated Cost Efficiency:**

- A **K tank** yields approximately **300 DLCO tests**
- **Estimated cost per tank:** \$600–\$650
- **Approximate cost per test:** \$2.00–\$2.17
- **E tank** is the smaller portable tank that fits on cart

*Please note: The gas vendors do not provide fixed pricing without account-specific details, as costs vary by region, delivery, and service structure. These estimates are meant to serve as a general reference. Pricing is often negotiable directly with the vendor.*

### **Vendor Options:**

#### **Option 1: Airgas**

- Contact: Christina Anderson
- Email: christina.anderson@airgas.com
- Phone: (877) 717-4540 ext. 11188

#### **Option 2: Linde**

- Contact: Claudia Barrera
